 Hideaway Deluxe bins help control rubbish odours
 Storage – baking, domestic, animal biscuits (remove perfume sachet)
 Great for use in apartments

At your disposal

Keeping household surfaces clean is as easy as having a discreet Hideaway bin that glides out of sight and out of mind

Indoor rubbish bins may be a necessity – but they can also be a decor’s Achilles heel. To avoid the sight of a dirty bin, dropped scraps, and clutter generally, it makes sense to consider an option that places cleanliness at your fingertips.

Hideaway bins, by Kitchen King, offer an easy way to keep rubbish and mess out of sight in any area of your home – whether kitchen, bathroom or laundry, says business manager Jamie Bertelsen.

“There are three ranges available – the Hideaway Compact, Hideaway Deluxe

and Hideaway Soft Close – each offering an individual space-saving solution,” she says. “All units are easy to clean and made from zinc-treated steel, powdercoated for strength and longevity.”

The Hideaway Compact bins are top mounted and designed for modest spaces. At the next level, the Hideaway Deluxe bin features a removable, foam-sprung, fiction-fitted lid that creates a seal across the buckets. The third style, the Hideaway Soft Close, offers similar function to the Hideaway Deluxe, but with the advantage of

German ball-bearing, self-close tracks with an air vacuum dampener that prevents the bin unit from slamming.

For further details on Hideaway Bins, contact Kitchen King, phone (09) 426 7456. Website: www.hideawaybins.co.nz.
