

At your disposal

Hideaway Bins from Kitchen King roll out of sight with a touch, providing close at hand rubbish or storage options to help keep the interiors of your motorhome clean.

With three intelligently designed, New Zealand made ranges to choose from – Hideaway Compact, Hideaway Deluxe and Hideaway Soft Close – there is sure to be a solution for you.

Each Hideaway Range offers a simple and stylish space saving solution, as pictured in this KEA motorhome. All units are easy to clean and are made from zinc treated steel that has been powder-coated for strength and durability.

The polyethylene buckets come in various sizes and configurations to suit your requirements. For example, the single bin systems are ideal for motorhomes with limited space. For those with additional space, options such as the double bin system provide a recycling solution or the single 50L bin provides a hidden laundry basket or bulk rubbish storage solution.

A liner holder is included with all bucket sizes, for example, the 15 litre bucket and liner holder,

will hold a standard supermarket shopping bag in place. All models feature high quality tracks that over extend, allowing easy removal of the buckets.

Hideaway Bins can be installed directly to the underside of a bench at waist height for ease of access. Alternatively, the bins can be installed beneath a shelf to fit within the space you have available.

Every detail of the Hideaway range has been designed to complement the motorhome - neat thinking!
